## At Last! A Time-Saving Directory for Every Type of Building!

Wondering if a TouchSource Directory will work for you? At Directory Solutions, we offer a full range of installation options designed to accommodate virtually any building.

The TouchSource Building Directory can be installed in any wall, security desk, custom cabinet, or free-standing kiosk. There's even a model that installs easily onto a bracket, column or pole. We can also design a directory to replace your backlit directory that specifically addresses the unique architectural requirements of your space. Directory Solutions offers you a world of choice and flexibility.

Backed by the **BEST WARRANTY** in the Business!

## Unique Space With Unusual Requirements?

# We've Got You Covered With Our Problem-Solving Wall Mount Directories...

**Every building is unique**, from unusual architectural elements to limited space. Even holes in the wall! Fortunately, we've got you covered with our exclusive series of Wall Mount Directories, available in a wide variety of finishes.

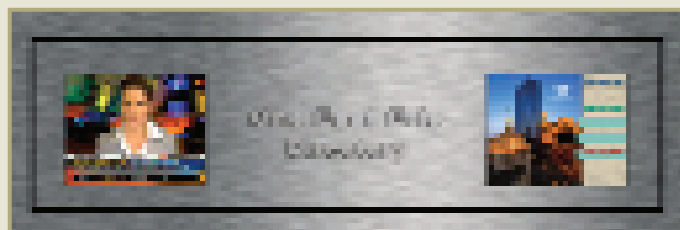

**Pantella Wall Mount:** Our low-profile Pantella Wall Mount directories can be seamlessly installed into a wall, between elevators, in entranceways, on columns, or virtually anywhere else space is limited. Choose from our original **Pantella** with its on-board CPU or the economical new **Pantella Mini** with its remote CPU and smaller footprint. At less than four inches deep, both units mount quickly and easily onto any wall or even on columns.

**Custom Flush Mount:** Our custom Flush Mount Directories are perfect for replacing old back-lit strip directories that leave holes, sun damage or unsightly marks on your wall. Simply give us the dimensions, describe your objectives, and we'll work with you to design a building directory ideally suited to your unique requirements.

### Semi-Custom Flush Mount:

Our Dual Monitor Flush Mount Directory includes both a building directory and a TV monitor to display cable TV, such as CNN and the Weather Channel.

Pantella Mini

### Architecturally-Finished Flush Mount:

Our exclusive Flush Mount series offers a low profile professional appearance in a ready-to-install unit. All equipment is housed in an architecturally-finished case with easy front access for maintenance.

Architecturally-Finished Wall Mount

## More Models to Choose From!

In addition to our Wall Mount Directories, we also offer free standing and custom installation options for you to choose from.

**Free-Standing:** Choose from three models, including our **Stealth Free-Standing Kiosk** with pre-installed equipment, our **RedyTouch Directory** with its minimal footprint or our **Desk-Top Directory** offering the ultimate in flexibility.

**Custom Directories:** We'll work with you to install a TouchSource Building Directory that works with your own unique custom cabinet, security desk or kiosk.
